# WALL STREET NOTES

Traders Entirely Satisfied with Market's Actions.

SLOW ADVANCE ANTICIPATED

Large Interests Behind Upward Movement Keep Shorts from Necessity of Covering in Lively Fashion-Strongest Feature of Yesterday's Session Was Canadian Pacific,

dian Pacific has recently disposed of pre-

dinn Pacific has recently disposed of preferred stock in London on terms better to it than a 4 per cent basis."

New Haven's new obligations are, of course, a fixed charge, while the dividend on the Canadian Pacific preferred is contingent, which makes the difference in flotations all the more favorable to the Canadian company; and as this road is now supplied with all the money it wants and a good balance to spare, it is natural that the market should reflect the fact that the financing was done on terms more favorable than any that are within the reach of roads in the United States. One thing that stands in favor of Canadian for the canadian favor of Canadian favor of Canadian for the canadian favor of One thing that starids in favor of Canadian Pacific preferred in London is that the stock is a legal investment for trust

Anaconda rose to a high record price, but reacted toward the close so that at the end of the day's session it retained only a small fraction of its early gain.

There was a story to the effect that the Amalgamated Copper Company would make an offer of its own stock, share for the outstanding stock of Anaconda, which would be equivalent to putting a market price of nearly 460 on the latter, the par value of which is only \$25 a share, while Amalgamated is of par value of \$3100. The story, however, found few believers, and there was a storne was a storne to a time the end of the day's session it retained only a small fraction of its early gain.

There was a story to the effect that the Amalgamated Copper Company would make an offer of its own stock, share for the outstanding stock of Anaconda, which would be equivalent to putting a market price of nearly 460 on the latter, the par value of which is only \$25 a share, while Amalgamated is of par value of \$3100. The story, however, found few believers, and there was a storne of the most active in the buyers in the end, and the property will be sold. It is not a question of money seeking investment here, but of getting the right amount to satisfy the demands of those who have the property for sale.

Season May Be Active.

"I believe the coming season is to be a to restaining order returnable March 1, 1907. Ome of the most active in the history of Washington, in the sale of new subdivided lots in the suburban sections. The material region of the suburban sections in the end, and the property will be sold. It is not a question of money seeking investment here, but of getting the right amount to satisfy the demands of those who have the property for sale.

Season May Be Active.

"I believe the coming season is to be a to restaining order returnable March 1, 1907. Ome of the most active in the history of Mashington, in the sale of new subdivided lots in the suburban sections. The material respective for Monday, February 18, 1907:

MILL FEED—Market firm. Winter bran (as to

mission houses in the street says: "It is well that the truth be distinctly stated, and those who base their hopes do. on the miserly sop offered by the Senate in the anti-currency legislation should disabuse their minds of belief that there is any real progress toward clastic currency in the measure which the Aldrich bill offers, namely: first, to deposit customs receipts as well as internal revenue in banks; second, to increase the minimum of circulation allowed to be with-In the anti-currency legislation should disabuse their minds of belief that there noum of circulation allowed to be with-frawn monthly from \$3,000,000 to \$9,000,000. "The first provision merely restores further volume to the circulation after depletion. It is altogether superficial. To redeposit money withdrawn by the Treasury from the circulation does not add a particle of automatic elasticity to the fixed sum of the currency which whether in bank or Treasury, totals the The second provision, in view of making for elasticity, is rather distinct ly a means for contraction when the money is needed. Secretary Shaw at the dinner of the Missouri Society, said: 'An issue of the bank notes, secured by a do posit of bonds, like our national bank circulation, always yields greater profit when interest rates are low than when therefore, of all bond-secured circulation is to contract as interest rates advance and to expend as interest rates decline." "The Aldrich provision then similarly allows at the time of most needed expansion a contraction of the currency of \$9,000,000 a month instead of \$3,000,000 as

Discussing in its market letter the question of stock watering, one of the most conservative houses in Wall street says:

'If the courts are asked to decide whether any proposed rates are illegal because they interfere with the rights of owners

in hogsheads.

LARD—Slow. Prime Western, 16.30; city, 6.634; commission, composed of Secretary Root, Assistant Secretary of State Bacon, and John Earrett, director of the bureau, instead of the prime with the rights of owners. of railroad property, the question will be not what the property is capitalized for, but what it is worth, or, in other words,

what it can be duplicated for. "Such questions as those about watered stocks are merely asked for the selfish purpose of a mere demagogue or because 4.50; the questioner does not understand the subject. If they have an adverse effect on the market it is merely part of the effect that they have in keeping new capital out of the railroads, which in turn merely adds to the rates that the 20,00a30.00; old and dry, 8,00a10.00

centing the only natural way of keeping down rates, viz.: the competition made possible by new capital being effective In other words, they tend to create a monopoly rather than to prevent one."
